

# GLOBAL EDUCATION FORUM 3<sup>rd</sup> Act

CHALLENGE HACKING EDTECH  
FROM 5 CONTINENTS

*Team American University of  
Afghanistan*

ABOUT US

## THE DIGITAL FUTURE OF THE EDUCATION MODEL BY “American University of Afghanistan”

The logo for American University of Afghanistan (AUAF) is centered within a white circle. It features the acronym 'AUAF' in a large, serif font, with 'AU' in blue and 'AF' in green. Below this, the words 'AMERICAN UNIVERSITY' are stacked above 'AFGHANISTAN', with a small 'of' in a script font between 'UNIVERSITY' and 'AFGHANISTAN'.

AUAF  
AMERICAN  
UNIVERSITY  
*of*  
AFGHANISTAN

AUAF is Afghanistan's most reliable and most trusted university. AUAF presents the future leaders of Afghanistan and it is where you can find standard education.

The team members who represent AUAF in this challenge are: Hekmatullah Haidery, Abdul Hadi Dawlatzai, Abdul Rahman Rezaei, Zaheerullah Amiri, Imran Omar, Sara Hena Hail, Dewa Barak, Khesraw Zaher, Ahmad Ershad Sediqi And the team was facilitate by Dr. Enakshi Sengupta and prof, Shoaib Rahim.

In our series of meetings we found out that each student who wants to start education will have the freedom of choosing between on Campus, Online, and Hybrid System.

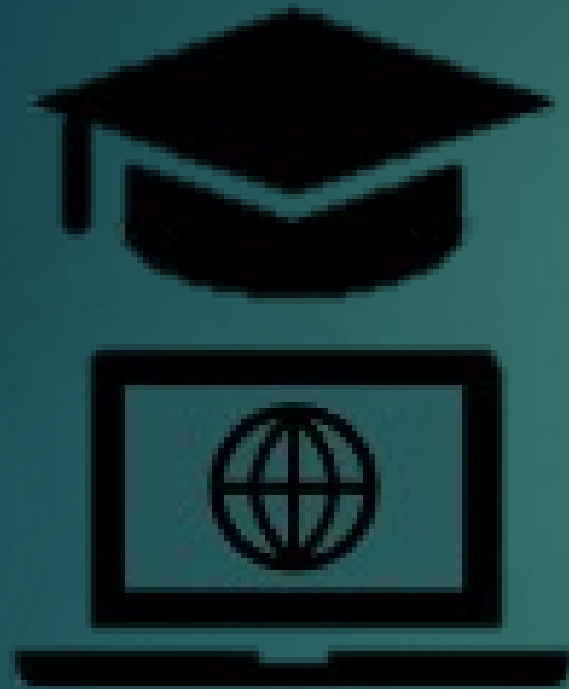

# Inversity

## The Inverse Hybrid University or Inversity

- ▶ The inversity is a physical facility whether private or public which provides physical group attendance in addition to online education. In one inversity we can have many top university branches in one campus. With lowest investment from partner universities we can have full accredited undergraduate degrees.

# Why do we need hybrid education system or iniversity

- ▶ **The iniversity provides opportunities:**
  - For countries with low economics to have the best universities.
  - For students with travel restrictions to have access to high quality education from their home country.
  - It doesn't need massive legal investment processes for international universities to establish campus in 3rd world countries.

# FINAL CONCLUSIONS

By Applying the Hybrid Education System we can have maximum use of technology to acquire higher education quality in our home countries with minimum investment. Having multiple universities in one hybrid campus which provides significant facilities for in-campus and online education experience all in one campus by having international universities to provide their educational services online in a physical campus in which students can attend physically in groups to be benefited from in-campus and online education system advantages together.

*“The best thing you can do now is find holes in this system...”*

*We are here to hear from you*

*Thanks*
