**HACKATHON REIMAGINING THE
FUTURE OF HIGHER EDUCATION**

Camilo Jose Cela University

ABOUT US

THE FUTURE OF HIGHER EDUCATION BY CAMILO JOSE CELA UNIVERSITY

Camillo Jose Cela University or UCJC was established in 2000 is named after D. Camilo Jose Cela a Nobel Literature Prize winner, who, with Felipe Segovia Olm, laid the university's first stone.

Ever since, UCJC has been developing and looking into the future of education adapting to the everchanging world to provide the best training and education for the citizens of the future.

The students of the degree in nursing, specifically, the students from the subject of Emergencies. The process has been facilitated by the teacher and the department of nursing.

The experience has made us look at higher education from a different perspective.

Increase the practical burden of studies

What specific need have we identified?

Increase in the number of practical hours
Adaptation of theory hours

What or who is involved in the need

Students, teachers, Ministry of Education

What are the problems created by this need?

Requirement for more time.
Decreased attention span.
Lack of knowledge of professional areas.

Relevant information

Teaching guides and educational regulations.

What are the benefits of solving this need?

Improved practice and increased knowledge of the subject matter at a practical-technical level.

Why do we want to meet this need?

To adapt knowledge to practice in order to enter the labour market.
For a better resolution of problems in our workplace due to the acquisition of previous practical knowledge.

3

CHALLENGE RESOLUTION

“How can
digitalization
transform the
current
educational
model?”

Therefore, what does today's university need to be better?

It should become a bridge between the academic world and the labor market, preparing the students for it, identifying the needs and giving the best possible training available.

CHALLENGE RESOLUTION

“How can digitalization transform the current educational model?”

What 3 things should it keep, 3 things should it add, and 3 things should it eliminate?

1 What to keep in higher education

- Relation between students and University staff (professors, clerks...)
- Proximity between students and teachers
- Possibility to reconcile studies and private life.

2 What to include

- Dinamic classes
- More transversal activities with other studies
- Increase recreational activities for students

3 What could be removed

- Coordination of workload between subjects
- Avoid having 4 hours non-stop of class

- For subjects that are very dense, these should be either reduced or time allocated for them increased.

FINAL CONCLUSIONS

THE FUTURE OF HIGHER EDUCATION BY CAMILO JOSE CELA UNIVERSITY

*The future of higher education should look into the outside world
and adapt to it, preparing the students for it.*

**YOU HAVE OFFICIALLY BECOME THE
GLOBAL DESIGNERS OF THE DIGITAL
EDUCATIONAL MODEL OF THE FUTURE.
CONGRATULATIONS!**
