**HACKATHON: REIMAGINING THE
FUTURE OF HIGHER EDUCATION**

Universidad Camilo Jose
Cela(Villafranca)

ABOUT US

THE FUTURE OF HIGHER EDUCATION BY “University Camilo Jose Cela”

This univeristy Camilo Jose Cela was founded in 2000 having as rector Emilo Lora-Tamayo D’Ocon and has aproximately 3500 students on it.

We are the students of the faculty of education and the process has been facilitated by the teacher Angeles Bueno.

The conclusión of this project is to see the weak points the actual universities have and to improve them for the future.

EMPATHIZE

Principal Ideas

- *Don't have 3-hour classes without a break*
- *Meeting new people*
- *Constantly living an academic experience*
- *Learning different cultures as there are a lot of Erasmus students*
- *More independence from our parents*
- *Feeling welcome by other students*
- *Get to know if you like what you are studying*
- *The possibility to have online classes*
- *The individual education that the students have*
- *Have the university better connected with buses, trains...*

DEFINE

Principal Ideas

- *Have different points of view and express ideas*
- *More dynamic classes, they are more interesting*
- *Try to improve the stress or anxiety generated by exams or presentations*
- *The necessity of more exams so the subjects are easier to pass*
- *Improving the knowledge about technology by the teachers*
- *Help the Erasmus students with the language or with the activities*
- *Have more interaction and communication with other degrees*
- *Make the teachers have a good technology formation*

PROTOTYPE

Keep	Add	Eliminate
Keep the teachers	More green spaces	Virtual classes
Compulsory assistance	More technology	A lot of homework
Exams	Interact more with other faculties	Expensive price
